

Dr. Kenny,

On behalf of the Central Committee, the Midwest section of Pottal Fii Bhantal Fouta Djallon (Union of the Development of Fouta Djallon) would like to extend its gratitude to you and the members of your organization for the important donation in medical supplies.

The supplies will be sent to two regional medical centers in Guinea, Mamou and Pita, serving over one million people largely comprised of the elderly, women and children. As a matter of fact, with the governmental policies of neglect since Guinea's independence from France in 1958, Fouta Djallon has been the theater of mass exodus to neighboring countries such as Senegal and Sierra Leone and around the world. The highland of Fouta Djallon with a surface over 80,000 sq. km constitutes the central territory of the Republic of Guinea, which is known as Moyenne Guinée, and includes parts of Upper and Maritime Guinea.

Pottal-Fii-Bhantal Fouta-Djallon is a non-profit organization [501 c (3)] whose purpose is the cultural, social and economic renaissance of the Fouta-Djallon. In conformity with Article III of its statutes, Pottal-Fii-Bhantal will partner with any other organization that shares the same goals in Guinea, West-Africa and the World. As such, our organization is looking forward to a dynamic partnership with yours.

Find attached pictures of the some of the medical supplies that Pottal Fii Bhantal sent to Guinea not long ago. For more information about our organization, please visit our website
